

LEGISLATIVE ASSEMBLY
ALBERTA

Laurie Blakeman, M.L.A. Edmonton-Centre
Official Opposition House Leader
Shadow Minister for Treasury Board, Finance and Enterprise
Culture and Community Spirit

June 6, 2008

Honourable Yvonne Fritz
Minister of Housing and Urban Affairs
107 Legislature Building
10800-97 Avenue
Edmonton, AB T5K 2B6

Dear Minister Fritz,

The majority of the housing in my constituency is heated using hot water radiators and many of my constituents are very concerned about adequate measures to ensure fair practices in heat cost allocation. Many of these systems are fueled by natural gas which we've now heard will be doubling in the near future.

How soon can my constituents, and many other Albertans, expect to have regulations in place to ensure that these cost allocation systems are accurate and fair? What future incentives can I pass on to my constituent's landlords to help them meet building efficiency regulations and targets? Yesterday in question period, you alluded to incentives you have already made available. Can you provide me with the details of the existing programs? Attached I have provided the Hansard excerpt with the exchange.

Sincerely,

Laurie Blakeman, MLA
Edmonton-Centre
